

Green Build Conference 2019: Building a Sustainable Future

**27 June 2019,
One World Hotel, Petaling Jaya**

Introduction

In collaboration with REHDA Institute (RI), GreenRE brings to you the inaugural Green Build Conference 2019 (GBC 2019). GBC 2019 is a sustainable built environment focused forum with participation from various influential speakers and industry renowned experts who have made an impact in the sustainable real estate industry. With climate change having an undeniable impact on the way we plan and manage cities, buildings and construction projects will need to take into account all available technologies and best practices to ensure a cleaner and greener environment.

It will be an exciting platform for delegates and like-minded people to expand their knowledge by learning new strategies, the latest cutting-edge innovations and gain valuable industry insights. With forums such as Building a Case for Green Buildings, Green Financing & Sustainability Reporting Policy to Practice-Case Studies it is a highly anticipated forum.

Event Highlights

- 1 Day Event in an established hotel in Klang Valley, Malaysia
- Around 400 participants incl. professionals, government officials, senior management and industry experts
- Smart partnerships with organisations and associations
- 3 Major Forums: Building a Case for Green Buildings, Green Financing & Sustainability Reporting Policy to Practice-Case Studies.

- Construction Industry
- Government Representatives
- Educational Institutions
- Engineers
- Energy Modelers
- Electrical Consultants
- Green Building Facilitators
- Green Product / Equipment Manufacturers
- HVAC Consultants
- Interior Designers
- International Agencies
- Landscape Consultants
- Lighting Consultants
- Project Management Consultants
- Town Planners

Supporting Partners

- Ministry of Environment, Science, Technology, Energy and Climate Change (MESTECC)
- CIDB-CREAM
- Institute of Engineers Malaysia (IEM)

8am

Registration & Welcome Coffee

9.00 am

Opening Ceremony

- Welcome Speech by REHDA President
- Opening Address by Minister

9.30 am Plenary Session

Adapting Buildings in a Changing Climate

10.00 am

Morning Tea Break & Sponsor Booths Tour

10.30 am

Forum 1: Building a Case for Green Buildings

As the world's urban population expands, architects and planners are mapping out ways to make buildings more sustainable. Cities produce a vast amount of emissions and waste, putting a strain on both human and ecological health. But our buildings themselves may hold a solution. Hear from our experts on the drivers and policies influencing the future of green buildings in Malaysia and Southeast Asia.

Speakers

- The Edge Environment (Australia), Jonas Bengtsson, CEO
- Singapore Green Building Council (SGBC), Yvonne Soh, Executive Director
- IWBI Asia (Hong Kong): Samantha Allen, Director of Business Development
- Miniwiz Singapore: Ar Tan Szue Hann, Managing Director
- Malaysian Institute of Planners (MIP): TPr Tn Hj Ihsan Zainal Mokhtar, President
- KAER Singapore: David Mackerness, Director

Followed by Panel Discussion

12.30 pm

Lunch

1.30pm

Post-Lunch Debate: Plastic vs No-Plastic

- **NGO**
- **Malaysian Plastics Manufacturers Association (MPMA)**

2.00 pm

Forum 2: Green Financing & Sustainability Reporting

What are the financial solutions and service offerings that can shape or create a paradigm shift for the green building industry to make it more robust and with a greater impact towards mitigating climate change? Hear from our experts as we examine the challenges for sustainability investment and how it can be used as a tool to drive innovation and strategy.

Moderator: PricewaterhouseCoopers (PwC) Malaysia: Andrew Chan, Consulting Leader

Panelist:

- CIMB: Samir Gupta, Chief Executive Officer, Group Consumer Banking
- Securities Commission: Dr Md Nurdin Ngadimon, Deputy Director (Development and Islamic Market)
- Malaysian Green Technology Corporation

Followed by Panel Discussion

3.30 pm

Networking & Tea

3.45 pm

Forum 3: Policy to Practice-Case Studies

What are the new and proven trends in green building design that are making a difference? This session will feature inspiring real-life projects and applications highlighting different approaches to design.

- Sime Darby Property Berhad: Sustainability Strategy to Execution – Delivering Results, City of Elmina by Sharif James Zainal Aziz, Sustainability & Placemaking Officer,
- Lendlease (Australia)
- IEN: Gregers Reimann

Followed by Panel Discussion

5.30 pm

End

*****The GBC 2019 programme is subject to final confirmation*****

GreenRE Sdn Bhd

GreenRE is the green real estate certification body established and owned by the Real Estate Housing Developers Association Malaysia (REHDA). Our core objectives are to provide an objective and international standard rating system to certify real estate projects as environmentally sustainable and to promote green buildings and sustainable development in Malaysia. We have adopted internationally recognised best practices as well as incorporated Malaysian standards in formulating our green building and township rating tools for the Malaysian built environment.

Collaboration with the Malaysia's Ministry of Environment, Science, Technology, Environment and Climate Change (MESTECC) puts us in alignment with the Malaysian government's strategy for enhancing environmental sustainability and achieving CO2 emissions reduction targets agreed upon with the global community.
